An award-winning Stockholm-based research services company.
Judy and Kate have +20 years of experience helping researchers success as academic publishing professionals.
Some of our recent achievements above.

Why apply for more funding?

- Do what you want to do, e.g. attend conferences
- Academic independence
- Funding brings more funding
- Transferrable “recognition” across all industries

Everyone applies to the same funders...

**Our mission:
connect you with even more research funders**

scientifyRESEARCH

research funding database

What makes funding info accessible?

Open Access

Open Science
+
people's workflows

Relevant info

Remove the "noise" of
irrelevant grants

At the right time

Timely notification and
reminders

Sources of research funding

Your institution

National funders

Learned societies

Foundations

Types of research funding

For you

scholarships | fellowships |
awards

e.g. ERC, Marie Curie

For challenges

research grants
team grants

e.g. Horizon Europe

For activities

science communication |
conferences

e.g. society grants

Keywords, keywords, keywords

- My research is on the effects of compound x on process y
- I am working on the signaling pathway z

Too specific....

Keyword funnel

*Grants are not the same
as research papers...*

National | EU grants

Subject: life science | molecular biology | health

Challenge: cancer | rare disease

Keywords: e.g. cystic fibrosis

More tips for funding success

- understand what funders are looking for
- funders also want to diversify their funding portfolio
- recognition from different funders helps you be more successful with other funds
- contact funders directly

GrantDesk + scientificRESEARCH

- 1 year subscription to
scientificRESEARCH's funding database
- Get valuable feedback on your existing
grant application + discounted pricing
for your next grant applications

empower people AI

Hello Innovators!

Thank you for embarking on a journey of exploration and discovery with us at the "AI for Next Level Science" workshop! We hope you found the session enlightening and are now brimming with ideas to elevate your science through the power of AI. We're excited to share some additional resources and materials to fuel your passion and knowledge.

🌟 Content:

1. 🔍 Dive deeper and explore the workshop materials!
2. 🌐 Let's stay connected and join our energetic community!
3. 🎧 Tune in on enlightening conversations in our Podcast!
4. 📖 Read up with further sources to quench your AI thirst!

1. 🔍 Dive Deeper: Explore The Workshop Materials!

Scientific Writing with AI?
What does GPT mean?
Incredibly useful prompts
for decision taking and for
creativity? Look no further!
